

3 Mega-Pixel Vandal Proof IR IP Camera

Exceptional surveillance with outdoor-ready 3 Mega-Pixel camera

The PLANET ICA-5350V Network Camera with IR Illuminator is a high resolution camera for round-the-clock surveillance over IP networks. This camera supports H.264, MPEG-4, and JPEG compression formats and delivers excellent picture quality in 3 Mega-Pixel resolutions at 30 frames per second (fps). Incorporating the new Exmor™ CMOS image sensor from Sony, which is specially designed for surveillance applications, this camera provides high quality images under all lighting conditions. The IP66-rated and Vandal Proof housing protects the camera body against rain and dust and ensures operation under extreme weather conditions, which makes it an ideal solution for outdoor applications, e.g. surveillance of buildings, roads, parking areas, garages, railway stations and airports.

3 Mega-Pixel Resolution

Day & Night functionality

To adapt to constantly changing lighting conditions, the ICA-5350V comes with a removable IR-cut filter and built-in IR illuminators, which enables the camera to provide color video when there is sufficient light, and black/white video in dark conditions. The camera is able to maintain clear images 24 hours a day.

Exceptional Image quality

Together with powerful image processing attributes like Wide Dynamic Range and 3-Dimension Noise Reduction technology, the camera is able to filter the intense backlight surrounding a subject and remove noises from video signal. The result is that an extremely clear and exquisite picture quality can be produced even under any challenging lighting conditions.

Advanced event management

The ICA-5350V also supports a number of advanced features that give the camera increased flexibility and capabilities, including Auto-iris for improve the image quality to avoid over exposure, AV out for perform the two-way audio function, RS485 for connectivity to an optional pan/tilt enclosure which effectively adds pan/tilt functionality and inputs/outputs for connecting external devices such as door sensors and relays to activate light or close doors.

Flexible installation and Power functionality

The ICA-5350V incorporates Power over Ethernet supplies power to the camera via the network, eliminating the need for power cables and reducing installation costs. With other advanced features such as the Gigabit Ethernet Transmission, giving a user the utmost in bandwidth flexibility and storage efficiency. The ICA-5350V is ONVIF-compliant and therefore interoperable with other manufacturer's products, it's also included 64-CH central management software; the ICA-5350V is indisputably the top choice for reliable and high performance surveillance.
